“Crafting Future Leaders”

BRING YOUR OWN DEVICE (BYOD)

Vision—The New Zealand Curriculum (NZC) vision is for “confident, connected, actively involved, lifelong learners.” Our students are growing up in an ever changing world where digital devices are widely used for communication and learning both inside and outside of school.

All Year 9 students are expected to have a digital device of their own to use in the classroom.

NB. Cellphones are not acceptable devices.

The advantages of BYOD—A student-owned device allows students anytime, anywhere access to Educational resources and important information in our school environment.

Students Can:

- Access resources and activities online.
- Create digital folders that they have ready access to (no more lost books)
- Access their own personal school google account to create, manage and learn.
- Collaborate and communicate with teachers and students.
- Work independently on personalised programmes; and access lessons in some instances.
- Become active partners in their learning

COMPULSORY STATIONERY to cover all subjects.

Students should have these basic stationery items for use in every subject: Blue, Black, Red Pens, 2 x Pencils, Rubber, Ruler, Glue stick, Colour pencils, 2 x refills, scissors, pencil sharpeners, highlighters, felts.
